Table 62. Budget by cost type, with low, base and high scenarios (Tk crore)

Item	Year 1	Year 2	Year 3	Total
One-time direct costs (equipment, benchmark creation, studies and evaluations)	1.42	1.46	0.79	3.67
Recurring direct costs (staff, editors, fellows, hosting, OCR, training, assurance)	2.69	5.05	6.35	14.10
Host overheads and contingency	0.62	0.98	1.07	2.66
Base case total	**4.73**	**7.49**	**8.21**	**20.43**
Low scenario total	4.20	6.58	7.16	17.93
High scenario total	5.76	9.46	10.03	25.25

Low scenario: staff costs 15% lower, escalation 6%, equipment 20% cheaper, Tk 120 per US dollar. High scenario: staff costs 20% higher, escalation 10%, equipment 25% dearer (for example import duty and VAT), Tk 135 per US dollar, contingency 10% and USD 20,000 of cloud compute for Stage 1 adaptation. Figures are rounded independently.
