Table 68. Revision history: changes made after the October 2026 audit

Where	Change	Reason	Evidence or calculation
Front matter	Status table; disclaimer and Overview revised; budget added to the Overview; counts updated	Separate what exists from what is proposed	Repository check, 22 October 2026; Annex P
Ch. 1	Legal timing qualified; method step 6 (audit); implementation described as a research prototype	Avoid overstating legal and software status	[84, 85, 86, 113]
Ch. 2; Table 4	Primary sources for EGDI and GCI; corrected citation for the 2023 AI readiness rank; legal summary rewritten	Accuracy and source quality	[80, 119, 120]
Ch. 3	AI Hub described as a proposal with a signed grant agreement, not a project under implementation	Source shows a proposal awaiting approval	[35, 117]
Ch. 5; Annexes E to G	Legal status of bodies; independent selection of ERRC members; removal for cause; precedence of law (Article 13); charter confirmed after legal review	Independence and legal accuracy	Annex S
Ch. 8, 10	Chief data officers, NRDEX and the source-code repository attributed to the instruments that describe them; residency amendment; stricter-reading rule; GPU capacity matched to the budget	Correct attribution; internal consistency	[84, 113, 115]; Table 49
Ch. 9; Tables 28, 30	Benchmark composition, splits and statistical rationale; decision rule; refined metric definitions; five-step model ladder with feasibility estimates	Make targets measurable; avoid assuming a new model is needed	Wilson intervals; [121]
Ch. 11; SECURITY.md	Maturity terms defined; CI described as configured; security and dependency practice	Distinguish prototype from production	Repository
Ch. 12, 13	P1 exit tied to the protocol; complaints and appeals; labelling presented as BAPIL's rule	Measurability; accountability; correct attribution	[89]; Annex R
Ch. 14; Tables 41 to 43	Chronology of ordinances and Acts; enactment separated from commencement; legal review scope; new Section 14.7	Legal statements rest on secondary sources	[84 to 89, 106, 113 to 116]
Ch. 15; Tables 44, 48	Month 1 defined by MoU, host agreement and funding; MS1 and first 90 days aligned; calendar caveat	Implementation realism	Annex T
Ch. 17; Tables 49, 50	Budget revised from Tk 18.49 to 20.43 crore: escalation, recruitment ramp, separate contingency, evaluation items; scenarios and sensitivity; rounding explained	Financial transparency	budget_model.py; [118]; Table 61
Ch. 18, 19; Tables 16, 18, 25, 54	KPIs labelled as targets; time saved measured, not self-reported; training counts reconciled with the budget; OCR sampling; link to risk monitoring	Consistency between plan, budget and measurement	Annex R; Table 49
Ch. 21; Table 57	Conclusion reworded; Decision D4 revised; note that no decision creates a statutory body	Overclaim; independence	Annex S
Annexes P to V	Evidence status; budget reconciliation and scenarios; evaluation protocol; governance status; preconditions and work packages; risk monitoring; this revision history and unresolved items	Review mandate	As listed in each annex
References	References 113 to 121 added	New evidence	As listed
Bangla edition	All revisions translated; Bangla numerals for lists, citations, page numbers and chart labels	Bilingual consistency; editorial quality	Automated comparison of numbers by section

The full issue register, claim verification matrix and scores are in the separate Audit and Revision Report in the repository (blueprint/review/).
