Table 46. Indicative long-term targets by horizon

Indicator	2026	2028	2030	2035	2041
Public documents indexed with full provenance	0	15,000	30,000	100,000	All public instruments in force
Share of national laws in force searchable in Bangla and English with citations	0%	50%	90%	100%	100%, updated within 7 days
BanglaPolicyQA questions (all versions)	0	1,000	3,000	11,800	Multi-domain, maintained
Officials trained (cumulative)	0	200	750	5,500	Part of public-service training
Agencies using BAPIL tools or methods	0	3	10	30	Most ministries and divisions
Monthly active users of policy search	0	50	500	3,000	Routine use across government
Bangla and English Recall@10 gap (points)	n/a	Measured from v1 (month 30)	5 or less	3 or less	2 or less
AI systems listed in a public transparency register	0	6	15	Public-sector-wide register proposed	Standard practice
Independent evaluations published	0	1	3	8	Every 5 years at least
Open releases archived with a DOI	4	8	15	40	Continuous

Planning targets, not commitments. They assume the baseline scenario of Table 47, Phase 0 in the first half of 2027 and Month 1 in July 2027, and are reset at every strategic review. Values are for the end of each year; from 2030 they assume the conditional scale-up of Annex W (Table 70). Question counts include 300 out-of-scope questions.
